

POWDER KITCHEN

COMPLETE AUTOMATION OF YOUR POWDER MANAGEMENT

POWDER KITCHEN

COMPLETE AUTOMATION OF YOUR POWDER MANAGEMENT

ADVANTAGES

- Fast colour change.
- Automatic cleaning facility for suction pipe, pump, hose pipe & Guns with the touch of button.
- Big Capacity sieving system (500kg/hr).
- Entire unit operation through PLC based Single Touch screen.
- The entire system is enclosed in closed chamber with suction unit. There is no powder spillage & powder migration to surrounding.

Powder kitchen is the system which organizes your coating process & keeps the coating zone free of powder spillage. All powder being used is contained in the kitchen.

Powder Kitchen comprises an exhausting chamber containing an online sieving system with the master hopper. It includes the spray pumps with automatic lifting system to allow for automatic & easy cleaning during color change.

The system also includes a fresh powder feeding hopper & pump so powder is replenished in the spray hopper as needed.
